**7. USE OF PARKING FACILITIES:**

All required off-street parking spaces shall be used only for the purpose of accommodating the vehicles of clients, customers, employees, members, residents, or tenants who make use of the principal building or use for which the parking area is provided, and such parking area shall not be used for off-street loading, driveways, access or egress, commercial repair work, display, sale of storage of goods of any kind.

**8. LOCATION AND SITING OF PARKING FACILITIES:**

- (a) Where a building or structure has more than one use, the required number of parking and loading spaces shall be the sum of the requirements for each use.
- (b) Required spaces shall be provided:
  - (i) on the same parcel as the building for which they are required, or
  - (ii) on a parcel or portion of a parcel located within 95 m (322.91 ft.) of the building for which they are required, provided that annexed to such parcel is a covenant registered in favour of the Municipality that the parcel or portion of the parcel concerned shall continue to be used solely for parking purposes.

9. DEVELOPMENT AND MAINTENANCE STANDARDS:

- (a) The location of all points of ingress and egress to a parking area shall be as specified in the City's Highways Use Bylaw.
- (b) Off-street parking spaces provided for each use or building as required by this Bylaw shall conform to the following regulations:
  - (i) 75% of the parking spaces shall have a minimum unobstructed length of 5.5 metres, a minimum unobstructed width of 2.7 metres and a minimum unobstructed height of 2.1 metres;
  - (ii) the remaining 25% of the parking spaces shall have a minimum unobstructed length of 5 metres, a minimum unobstructed width of 2.5 metres and a minimum unobstructed height of 2.1 metres;
  - (iii) parking spaces suitable for handicapped individuals shall be provided, of the number and dimensions required by the British Columbia Building Regulations and the Bylaws of the City; and
  - (iv) when a parking space adjoins a building, fence or other structure over 30 centimeters in height, the required width of the parking space is increased by 30 centimeters.
- (c) Adequate provisions shall be made for individual ingress or egress by vehicles to all parking spaces at all times by means of unobstructed maneuvering aisles. Maneuvering aisles of not less than the following widths shall be provided:

<u>Parking Angle in Degrees</u>	<u>Width of Aisle in Meters</u>
90	7.5 M (24.61 ft.) 6.5 M (21.33 ft.) under- ground or in a building
Less than 90) Greater than 59)	5 M (16.40 ft.)
Less than 60	3.5 M (11.48 ft.)

- (d) All parking areas shall be provided with adequate curbs in order to retain all vehicles within such permitted parking area, and to ensure that fences, walls, hedges or landscaped areas, and buildings, will be protected from parking vehicles.
- (e) All parking areas shall be surfaced with an asphalt, concrete or similar pavement so as to provide a surface that is durable and dustfree and shall be so graded and drained as to properly dispose of all surface water.

- (f) Any lighting used to illuminate any parking area or parking garage shall be so arranged that all direct rays of light are reflected upon such parking area or parking garage, and not on any adjoining premises.
- (g) All points of access to an underground parking area or to a parking area contained in a building shall be through a door that is kept locked except when pedestrians or vehicles are entering or leaving the said parking area.
- (h) All development within the City of Port Coquitlam's downtown area must adhere to the objectives and guidelines as specified in the City's 'Downtown Street Beautification Plan' 1999.

**10. REQUIRED OFF-STREET LOADING SPACES:**

- (a) On every parcel used for a commercial or an industrial use the minimum number of loading spaces shall be:

<u>Total Gross Floor Area of Building(s)</u>	<u>Spaces Required</u>

**11. LOCATION AND SITING OF LOADING FACILITIES:**

Off-Street Loading spaces and facilities shall be located on the same parcel as the use served, but not within the required front or side yard nor closer than 7.5 M (24.60 ft.) to the nearest point of intersection of any two street allowances.

**12. DEVELOPMENT AND MAINTENANCE STANDARDS:**

- (a) The location of all points of ingress and egress to a loading area shall be subject to the approval of the City Engineer.
- (b) All off-street loading and unloading spaces shall be of adequate size, and with adequate access thereto, to accommodate the types of vehicles which will be loading and unloading, but in no case shall be insufficient to accommodate a vehicle 9.0 M (29.53 ft.) in length, 2.6 M (8.53 ft.) in width and 3.6 M (11.81 ft.) in height.
- (c) All loading areas shall be provided with adequate curbs in order to retain all vehicles within such permitted loading areas, and to ensure that required fences, walls, hedges, or landscaped areas, as well as any buildings, will be protected from parked vehicles.
- (d) Each loading space shall be surfaced with an asphalt, concrete, or similar pavement so as to provide a durable, dust-free surface, and shall be so graded and drained as to properly dispose of all surface water.
- (e) Any lighting used to illuminate any loading area shall be so arranged that all direct rays of light are reflected upon the loading area, and not on any adjoining premises.

**DIVISION 3 - WORKS AND SERVICES**

**13.** It is required as a condition of subdivision approval or the issue of a building permit that the owner of the land provide works and services on

- (a) a highway immediately adjacent to the land being subdivided or the site being developed; and,
- (b) the site being developed.

**14.** The works and services required by Section 13 of this bylaw are those highway, water, sewage disposal, storm drainage, street lighting, sidewalk, underground utility and other works and services required in Sections 401 through 408 of the "Subdivision Servicing Bylaw, 1987, No. 2241" all as constructed to the standards established in that Bylaw and its Schedules for land in the relevant zone and the construction of such works shall be completed prior to subdivision approval or permit issuance, or secured in the manner provided in the said Bylaw No. 2241.

- 15. Where a portion of the works and services required by Section 13 have been previously provided, the owner of the land shall provide the remaining works required to fully comply with Section 14 of this bylaw.
- 16. The requirements imposed by Section 13 shall be observed notwithstanding that all or part of them could or should have been required at some earlier time.

**DIVISION 4 - TITLE**
